How a New Approach to Planning Makes Your Schedule a Strategic Asset

You're not wrong: Capital construction scheduling is struggling to keep up as the industry changes fast. Even the most skilled schedulers face an uphill battle.

53% of capital construction projects are delivered late

53%

55%

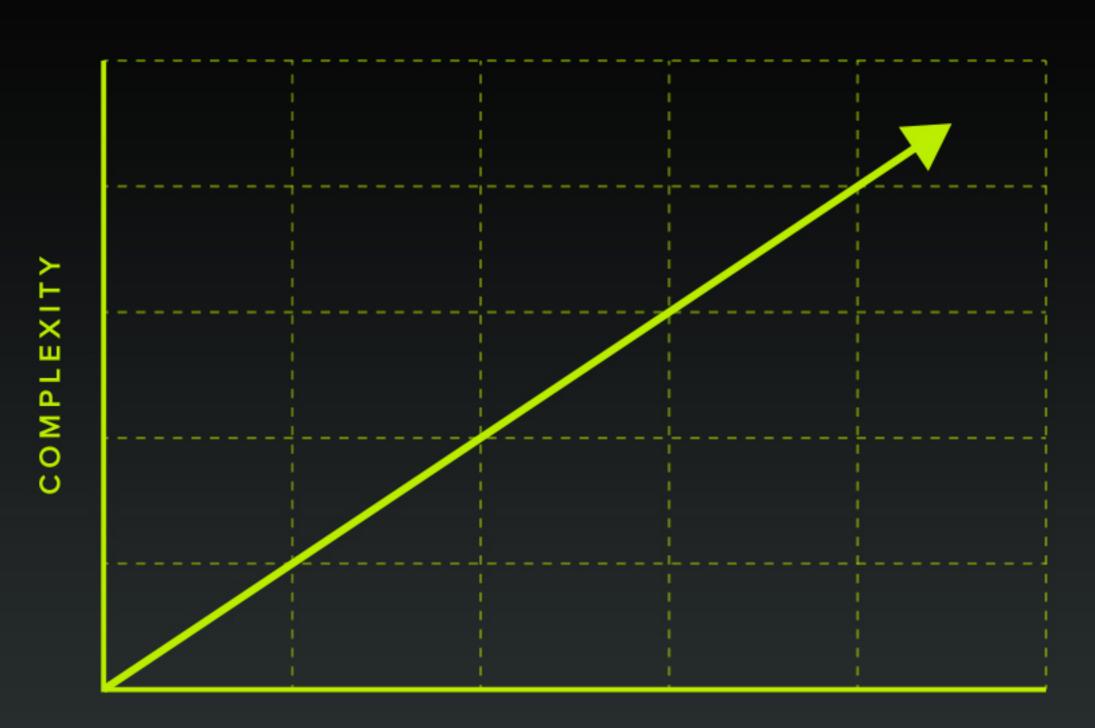

55% are over budget¹

Only 8.5% of infrastructure projects deliver on time²

8.5%

More Innovation = Greater Complexity

Construction project complexity is increasing across the board. Extended timelines are often due to innovations in:

- TECHNOLOGY
- SUSTAINABILITY •
- **DELIVERY METHODS** ٠
- REGULATION •

Design-build projects will represent 47% of all spending by 2026³

The Scheduling Staffing Crisis

So who will schedule all these complex projects?

There are over 17,000 job openings for schedulers in the United States⁴

44/0

Only 11% of all schedulers are under 30⁵

Requires at least 24 hours of in-class training to learn just the basics of P6⁶

68% of organizations tag labor and recruitment challenges as a key disruptor for their business⁷

There's Another Way

Smart businesses know they need to rethink their scheduling approach, and now there's a software to match the business processes you need. In Eight Schedule combines tried-and-true CPM capabilities with Al-driven tools to create dynamic, strategic schedules.

OUTDATED SCHEDULING TOOLS	INEIGHT SCHEDULE
Hours of training	Easy to use without extensive training
